

Bio:

Brent Hardman, P.E.

Powell Fabrication & Mfg., Inc.

Brent Hardman is a Project Engineer with Powell Fabrication & Manufacturing, Inc., a globally recognized company specializing in chlorine scrubbing and sodium hypochlorite production equipment, and chlorine safety shutoff equipment for safer operation of bulk chlorine container loading and unloading systems. Brent has been instrumental in project development at Powell including the new state-of-the-art Continuous High Strength Low Salt Sodium Hypochlorite System. He has 18 years of experience with the design and fabrication of skid mounted chemical processing equipment.

Brent has assisted in the development and review of technical pamphlets on sodium hypochlorite, chlorine handling, and chlorine scrubbing for the Chlorine Institute.

Brent earned his BS degree in Mechanical Engineering from Saginaw Valley State University and his MBA from the University of Michigan. In addition, he is also a licensed Professional Engineer.
